

KF Flanges & Components

KF Oil Mist Eliminators

Features :

1. Eliminates oil fumes
2. Prevents loss of pump oil
3. Returns used oil to pump
4. Standard KF25 fitting
5. Long lasting polypropylene filter element (not paper)

Typical End Use :

1. For use in general, non-corrosive environments
2. Do not use in applications with high oxygen, silane, or condensable vapor content

Technical Data :

1. Body material : Polyamide
2. Filter Element Material : Polypropylene
3. Filter Element Pore Size : 0.1 Micron
4. Filter Element Replaceable : YES
5. Maximum Pump Throughput : 8 cfm
6. Flange Size : KF25
